

**MISTURA: A Magic Door
Call for Participants
Deadline July 29th, 2022**

“MISTURA” is a Magic Door into an imagined space. It is a place of discovery: interactive, immersive, manipulable, flexible, sculptural, and transformable by anyone who uses it. Composed of reusable, found, recycled and/or recyclable materials and using imaginative and interesting lighting techniques that require very little (if any) electricity and sound that relies primarily on foley techniques. Come play with us and tell a story in a space that is limited only by your imagination!

Who: You

What: Tell and/or perform a short story in the MISTURA space

How: Embrace the aesthetic and the creativity made possible by the challenges and limitations of this unconventional performance space; manipulate and transform the elements within the space to tell your story using unconventional lighting and sound techniques as well.

Duration: Limited to 60 minutes total, participants should expect to spend 20-30 minutes on setup with an additional 15-20 minutes for the story/performance.

The project is housed in a classroom with limited space. Because no one knows what MISTURA will look like until WSD debuts, we strongly encourage story tellers to visit the space prior to their performance to understand the aesthetic and how it could best work for them as well as to give the MISTURA team the opportunity to understand how they can best assist if necessary.

Participants must be registered for WSD

Deadline for proposals: July 29

Proposals (**max 500 words**) should include:

- A brief outline of your story
- Why you think it would work well in the MISTURA space
- Name and contact information
- Send proposals and any questions to Soledad Sanchez: desarrollarte@yahoo.com
